Our executives have spearheaded numerous corporate initiatives that involve mergers and acquisitions, start-ups and system / IT solutions and integrations in an accounting capacity in the P&C industry. We have managed the accounting function for large nationally recognized insurance carriers that managed complicated programs. Over our careers, we have helped formulate the creation of the accounting department in the US start-up operations and assisted with Sarbanes Oxley. Additionally, we have combined knowledge of Reinsurance, Program and Statutory Accounting.

We have also worked with MGAs, TPAs and other service providers to improve internal controls, create new customer reports, and improve profitability.

Areas of expertise include:

Design and installation of an automated process to reconcile ACH cash disbursements on an issued, cleared or budgeted basis to reported losses.

The design of data interfaces to link claims managed by the TPAs to the company's internal policy database for large account and program business.

Obtaining a significant return on investment on financial and operational audits that review the integrity, accuracy and reasonableness of reported claims information using electronic, prescreening methods.

BEST PRACTICES

Recent trends have created a need both for the Reinsurer and ceding client for improved methods to handle underwriting and claims cost in the most efficient and cost effective ways.

Our consultants help your company achieve a greater level of success by offering analysis on the integration of systems, technical auditing and organizational development skills, allowing us to target areas for improvement of bottom line results. Our engagements can be broad in scope or focused in a particular area, discipline or line of business.

Best Practices services includes

- Electronic Benchmarking
- Scorecard measurement
- Evaluation and review of operations
- Assessment and oversight of expenses
- Management cost containment reviews
- Interim management
- Workflow analysis
- Training needs analysis
- Accounting/Escrow loss fund audits
